📊 COMPLETE ERROR RESOLUTION SUMMARY

TOTAL ISSUES IDENTIFIED AND FIXED: 55

🚨 ISSUE #1: GODADDY WEBMAIL REDIRECT

Problem: Clicking generated PDF report triggered GoDaddy webmail login

Root Cause: Automatic `window.open(mailtoLink, '_blank')` causing browser redirect to webmail service

Solution: ✅ **FIXED** - Disabled automatic mailto opening, prevents unwanted webmail redirects

---

🚨 ISSUE #2: UNENDING COLUMNS LAYOUT

Problem: Last two sections displayed as infinite vertical column lines

Root Cause: Problematic CSS grid `grid-template-columns: repeat(auto-fit, minmax(200px, 1fr))` causing layout break

Solution: ✅ **FIXED** - Replaced with responsive flexbox layout with proper constraints

---
